Kevin Lakey  
Water Master  
Water District #37  
107 First Street  
Shoshone, ID 83352

Dear Kevin,

The directors of the South Valley Ground Water District would like to express their support of the request of the Water District #37 Advisory Board that a measuring device be required and installed where the water from right 37-22876 joins the Big Wood River.

We believe that measuring the outflow of water at that point is essential to determining whether or not the right is consumptive.

Sincerely,

South Valley Ground Water District Directors

Sharon Lee

Jerry Bashaw
